## NEW WEBSITE

Published on the first of the month, the Danbury Police Cadets has created a new website. For a few months Sgt. Hannah Sussman has been rebuilding our old website to a user friendly, information full site. The new page, located at [DanburyPoliceCadets.org](http://DanburyPoliceCadets.org), has all of the prospective Cadet paperwork, dates for events, videos of our classes, all of our newsletter and monthly reports.

## ELECTIONS

On November 7, at our weekly meeting, the Post held nominations for the 2025 elected positions. These positions are our post Treasurers, Secretaries, Vice President, and President. All four positions are important to the dynamic of our program and its function. We started this process by explaining each position's responsibilities and ensuring everyone who accepted the offer would be prepared for the workload. Treasurer's have 3 candidates, two Cadets are running for Secretary. 3 Cadets are running for Vice President. And 2 Cadets are running for President. We wish the best for the nominated candidates and are delighted to see the results after the Speeches on December 5th.

## SOCIAL MEDIA COMMITTEE

This month the Post put a lot of effort into our Social Media and community outreach platforms. We launched a new website, and created a Social Media Committee lead by Hannah Sussman and Emily Prieto consisting of 6 additional Cadets. We work each month to write these newsletters, keep the website updated with our classes, paperwork along with starting to take over the Post social media in the coming months.

## K9 CLASS

On November 14, the Post had a shortened meeting to accommodate the filming of a movie in the area, despite this the Cadets had an incredibly interesting class about K-9 handlers. The class was taught by Officer Meade, a Danbury Police Department K-9 handler, and DPC Advisor who decided to share his experience and knowledge with us. Officer Meade went over the requirements, lifestyle and the training that has to be done to get and train a K-9. After the class, Officer Meade decided to do some live teaching. He brought his K-9 out and showed the class the drills they go through and how they were taught. Towards the end, another Advisor agreed to put on the bite suit so the Cadets could see what it was like when a K-9 is in action.
